

SANDVAC

The Vaniman SandVac is the ideal dust collector for dental sandblasters. Both quiet and powerful, the SandVac has a very long motor life and a very low cost of ownership.

MODEL FEATURES

- Powerful suction
- Extremely long-lasting bypass motor system
- Quiet operation (55 dBA)
- Compact, space saving design
- Foot pedal start/stop
- Pre-filter cyclone Accumulator captures 95% of all dust and 99% of all abrasive media
- Plug in your micro-abrasive blaster and control both with one easy step
- Easy maintenance
- One year manufacturer's warranty*

The SandVac is best used for one workstation or sandblaster to collect dry dust and abrasive particulates. If you are unsure about whether a specific application is compatible with this unit, please contact Vaniman Manufacturing Co.
